Abby Gotay Almonte

UPR Mayagüez student

abby.041b@gmail.com
(787) 307-3031

I've been programming for around five years, and am currently getting my bachelor's degree in Software Engineering. I also love both reading and writing.

Projects

Spells
A web server that enables quick prototyping using a mix of TypeScript, Pug/Jade, and Markdown. [https://abby-1b.github.io/site/spells/]

Python Tester
A Python test generator that makes sharing your script safer, by compiling it down to version-independent bytecode. [https://github.com/abby-1b/PythonTester]

General Monorepo
This is a huge GitHub repository full of all the projects that don't need their own repos. Most of them have a readme file. [https://github.com/abby-1b/thingsForCode]

Technical Skills

Python (3 yrs)　C (2 yrs)　C++ (2 yrs)　C# (2 yrs)　Java (1 yr)

JavaScript (4 yrs)　ARM Assembly (1 yr)　Rust (1 yr)　Swift (1 yr)

Education

University Gardens High School
Cll. Notre Dame, San Juan PR
High School diploma completed in 2023

UPR Mayagüez (Ongoing)
PR-108, Mayagüez, 00680
Bachelor's in Software Engineering
